Measure: HB2007

HB 2007 Oppose

I strongly oppose this unconstitutional bill. This would only make criminals out of law abiding persons and take away the ability for self defense in a random hodge podge of areas. This does nothing to take care of the root of the problem which is the violent criminal and certain violent mentally ill. How about some bills to control criminals and reform the mental health system instead of suppressing the law abiding. Self Defense Free Zones are not the answer. CHL holders are statistically among the most law abiding in our society, they are not the ones committing active attacks.
