Measure: HB2005
Representatives,

As an FFL law abiding citizen and a gun trainer for women, these bills have to stop already. Stop going after us and focus your energy on real problems in this state.

I am not sure why we continue to focus on firearms in this state when you and I both know are not the problem. This is another stretch from the Oregon Legislature to over reach on our Constitutional rights. Not only did you take an oath to uphold the Constitution, but you also took an oath to work with all the people in Oregon, not just a selective group. It seems that you were placed in office by a popularity vote, and you are breaking everyone's trust that you will do the right thing. We the People are tired of fighting these senseless laws that doesn't even attempt to stop criminals. Criminals, time and time again, we tell you, and even show you in statistics, that criminals will not obey the law you put out there. Tell me, with all the background checks I do and all the laws we have now on guns, how many criminals did that stop? Criminals are not afraid of jail, cops, or any authority figure. Why should they be? You never hold criminals accountable now. But then again, your goal isn't to go after them, it is to only go after Law Abiding Citizens. You don't want to stop criminals! If you did, you would be focus more on sex trafficking and drugs pouring into our state. This is your real problem.

Just understand that our freedom is given to us by the Constitution and even you can't stop that from happening. Yes, you can pass it with your cheating and scandals by voting it in, and we will fight it in court, like we have been doing with other unconstitutional bills. Aren't you tired of spending money and losing in court! It is exhausting on both ends.

Don't you get tired of making false reports on guns and violence? In fact, you all allowed antifia and BLM to burn, destroy, beat people to death, and get away with it. Your goal is to try to force your political false narratives on everyone living in this state. You don't believe in FREEDOM. You think you are above FREEDOM. Your

goal is to turn this state into a controlled environment that says "ONLY GOV GETS TO CHOOSE FOR YOU" You want to become a police state. Problem with this is we have too many people that will stand up and fight this in courts over and over if we have to.

Do yourselves a favor for the love of God, stop focusing on problems that are not there. Focus on real causes and real problems to our state. Guns are not the problem. They have never been a problem.

Thanks for listening.
