

## HB 2007 OPPOSE

I strongly oppose HB 2007!

This proposed bill would make it impossible for law-abiding citizens who are Concealed Handgun License holders to abide by the law when trying to navigate a patchwork of Gun Free Zones.

This does not protect the public but issues an invitation to criminals that Gun Free Zones are low risk for them but would increase the risk for law-abiding citizens.

When we see that the cities and states with the strictest gun control laws are suffering from the highest crime rates, why not learn from their mistakes and follow the gun control examples of states with low crime rates like Maine, Vermont and New Hampshire?

These 3 gun control bills (HB 2005, HB 2006 and HB 2007) are mis-directed attacks on law-abiding citizens. Go after the criminals who are not licensed and are not following gun control laws.

Focus on the public's safety, not further unconstitutional control measures and vote NO on HB 2007!
