

Submitter: Roger Porter

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Roger Porter
Sublimity, Or.

Senator Golden and Committee Members

I'm Roger Porter I want to express to you that I'm in full support of the -1 Amendment to SB 85 and ask that this -1 Amendment be approved and moved out of the committee.

This -1 amendment that is the 8 year CAFO moratorium bill, I believe is needed for a complete review of over existing laws. The existing laws and regulations are not adequate.

They are not protecting our air, the existing neighbors, our land, our local communities and our water.

The moratorium in the -3 would expire June 2025. The agencies would be required to complete their research by January 2025. This is still not enough time for agencies to conduct their research and have the time to enact protective rules.

I worked on Farms during my young adulthood. Many of my Family members are local Oregon Farmers, having Century Farms. One of our Families Century Farms has been purchased for a very large CAFO. I consider an Industrial scale Chicken growing operation.

Thank you for all your work on this bill!

I'm asking you for your support to approve the -1 amendment to SB 85 thank you.

Roger Porter
