

Submitter: Ryan Johnson
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I, Ryan Johnson oppose hb 3390. It would be taking the rights away from sportsman that spend thousands of dollars with odfw, gas stations, sports stores, etc... what I'm saying is, it affects a lot more than just what these people think. If we were to stop controlling the predator population around here, the deer and antelope fawns would be decimated.

My dad taught me how to trap and call predators and his dad taught him, and so on and so on.. it's a family tradition that will be yanked away from us. We enjoy handling the fur and take pride in how we put up our fur to take it to the fur sale every year.

In closing, I'm asking for you to not step on our rights that you really don't know much about..
