Measure: HB2007

This is the type of bill that gets people killed. The records by the FBI are clear that in cases of mass shootings almost every one is in a "Gun Free" zone and often picked for that very reason by the perpetrator. The uneducated have a false sense of security if a sign is posted "Gun Free" when in fact it should read "No Self Defense Allowed Zone". The fact this bill specifically includes those who have conceal carry licenses (backgrounds previously check) is why I use the word "Bill" as the is not legislation but an attempted assault on an individuals right to self preservation, while those proposing the bill hide behind "ARMED" security. Obvious we the peasants are not worthy.

Disgusted with the ongoing, year after year, bill after bill, the Salem elite continue to douse the public with as if we are peons that don't deserve a single right unless it is specifically bestowed by the upper echelons of society. As you can well guess, I adamantly oppose the "Bill"
