

Submitter: Peter Ware

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2990

I live at 1309 Pear Tree Lane in Medford, Oregon. I was evacuated during the Almeda Fire and saw a house that our family had built in 2010 in Talent, Oregon burned to the ground though we were no longer living there at the time of the fire. Resilience Hubs are very important as we continue to experience the disastrous effects of climate change. Please support this bill.
