

Submitter: Cee Webster

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Hello,

My name is Cee Webster and I live in Portland. I am writing in support of HB 2002.

This bill will help so many Oregonians continue to receive access to important health care, expand access to care, and help protect the safety of health care workers.

I strongly believe people should have full control over their own bodies, and be able to make those decisions without government intervention. I support HB 2002 and urge you to as well.

Thank you for listening.

-Cee Webster
