Support SB 868-871

Testimony:

My name is Kristi Kimball and I live in Bend Oregon. I urge you to approve the building resilience bill package to begin decarbonizing our buildings and our communities. Let's make Oregon a leader in addressing climate change and building the sustainable clean powered economy that will provide a good future for our children and ourselves. I am a mother of two children who are in middle school and high school. My son in middle school is terrified about the future that lies ahead for him if we do not take rapid action to decrease our carbon emissions today. Please help us build a better future right now!
