

Submitter: Sara Foerster
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Please support this bill to protect our community and families from people who are trying to skirt the law by building and/or obtaining "ghost guns." We must acknowledge the reality of technology and sophisticated methods that people use to get their hands on guns without a background check. Put these laws in place to deter this kind of behavior and protect us from the proliferation of these tools of violence in our communities. Thank you for reading this testimony.
