

Submitter: Sara Foerster  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

Local governments know the needs of their community best. Allow these governments the authority to make public safety decisions that suit the community, particularly the authority to regulate all firearms in public buildings and municipal property as needed. This is a common sense step that gives local governments the flexibility to meet the safety needs of their unique community. Thank you for your consideration.
