

Submitter: Jonathan Ayers

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Please vote this down, it does absolutely nothing to help crime. This bill not only is against Federal law, but Oregon law as well. This only affects law abiding citizens and does nothing to curb violence. There is no evidence that firearms without serial numbers play a major role, if any at all, in illegal firearms use. This is another outright attack on the citizens second amendment rights. Please concentrate on holding criminals to the existing laws rather than letting them out of prison for overcrowding or the District Attorney deciding to not prosecute.
