On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I favor any attempts to regulate firearms and restrict their use since they are a severe danger to the public. As a licensed social worker with many years' experience working with trauma survivors, I see the damage to people every day caused by firearms, particularly children! Please do what you can to regulate and limit firearms in Oregon! It is well-known that individuals under the age of 25 (not just 21!) do not have the prefrontal cortex maturity to make good decisions and tend to be impulsive, so any attempt to keep firearms out of the hands of people under 25 is to be applauded!
