

Submitter: Diana Margason Olson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

There is no place for undetectable firearms in a civilized society. Our safety measures using metal detectors to stop illegal transport on airplanes and other forms of public transportation. There is no reason why ghost guns should be legal as they have no legal serial numbers. We in the state of Oregon consider ourselves to be civilized, so therefore, logically allowing ghost guns and undetectable guns is uncivilized.
