

Submitter: Michael Sears

On Behalf Of: Self

Committee: Senate Committee On Natural Resources

Measure: SB85

Greetings Honorable Legislators:

Show us proof of the benefit for the inaction of this bill before you proceed farther.

Such dramatic changes to our food industry need to be justified and not promoted to address some ecological theory. Cities create the largest amount of pollution of air, water and heat generation while our country sides do not.

This and other similar bills proposed and passed are intentional acts of oppression upon the rural areas and our way of living.

Sincerely,

Mike Sears
