Measure: SB320

I feel like thos can be a great bill to me passed but I also ask to consider those who have more than one measure 11 crime. My friend is in there for his second measure 11 but the first one wasn't violent. It was because of a car accident and our friend died. The reason he is in now was due to him getting robbed and the state said if our witness shows up you will get 18 years so just take a deal for assualt 2. His lawyer said it should have been self defense but because of the good ol system being so iffy he wasn't going to risk it. Please consider those with cases like his. He hasn't been in trouble and done tons of classes and school.
