Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Chair Nosse, Vice Chairs Goodwin and Nelson, and members of the Behavioral Health and Health Care Committee:

I am proud to add my name to those in support of HB 2002. As someone who parents a trans young adult, ensuring our state is a safe haven for all who want to avail themselves of both trans health care as well as reproductive healthcare is a high priority for me. I am very pleased this body is poised to take action that will solidify our state as a leader in protecting the rights of all who need care and allowing them to make decisions with their doctor on what is the best and desired course of action, not being blocked by a legislative body. I hope we continue to be a beacon of hope for all in this country whose rights are being stripped.

Thank you,
Amie Wexler
