

Submitter: k davis

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2990

I am writing in support of HB 2990 which will create a grant program through the Office of Resilience and Emergency Management that will fund communities to build and implement Community Resilience Hubs and networks. We are stronger together. When our communities are threatened by wildfires, extreme heat, poor air quality, ice storms, floods and other climate disasters, we look out for our neighbors. By creating places to gather and care for each other in good times and bad, we strengthen our bonds and foster close-knit, resilient communities.

This bill will invest in building stronger communities and create the resources and connections to make it easier for Oregonians the next time disaster strikes. It is clear that we need to be preparing and adapting to foreseeable impending environmental crises, and must act proactively. Please pass this bill so that community members can get to work together in the tempestuous times.
