

Submitter: Robert Egner
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

Prohibitive bills like this should never exist. Our country was founded and protected by many young men at the age of 16, sometimes less. The age to be classified as an adult is 18. The age for our young men and woman to join the military and die for our country is 18. Voting age is 18 and in fact the state has a push to drop the voting age to 16 yet this bill is saying that all of those same people haven't the right to protect themselves or family.

In what world do you think these people shouldn't be able to have the Inalienable right to self protection? That is obscene at best!

Our right to protection is not in the hands of legislators nor has our armed society requested your protection!

It is past time for this tyrannical government to stay firmly in its lane and out of the lane of free Americans!
