

Submitter: Ryan Gorretta
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

The constant attack on our guns is completely unconstitutional. Our Right as men and women to keep and bear arms has nothing to do with your agenda. It is written very clear for a reason that that right "shall not be infringed" end of debate. Enforce the laws you've already overstepped and quite treating your police department with disregard. We are looking for strong leaders in tough times and so far you have proven yourself to not be.
