

Submitter: P Wallis

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2004

American democracy is at a crisis point where more and more voters do not believe their votes count. If we are to preserve our union and our democratic experiment we must make the necessary changes to deal with our changing world. Ranked choice is the first step in regaining the American peoples belief in our democracy. We have and always will adjust our democracy to benefit the individual American citizen .
