

Submitter: BARRY STENLUND
On Behalf Of: property owner
Committee: House Committee On Revenue
Measure: HB3446

The passage of this bill will help soften the expense our family incurred due to the fire of September 2020. Our family rebuilt our cabin which has been in the family for over 60 years. The money and time spent will never replace the original structure and surrounding area. Any help with lower property taxes will assist us in being able to recapture part of what has been destroyed due to the fire. Thank you for your support.
