

Submitter: Sandra Joos

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB525

PLEASE ban gasoline powered lawn equipment!! There isn't a single day of the week when I don't have to stay indoors, close windows and/or change my walking routes to reduce the impact of deafening noise, noxious, nauseating fumes and airborne dust and particulate matter from gas powered lawn equipment operated in my neighborhood. Their continued use poses real health and environmental hazards and should be discontinued as soon as possible.
