

Submitter: Richard Weber

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB525

I fully support SB 525. Small gasoline engines are filthy polluters that emit huge amounts of harmful emissions due, are extremely noisy, and have most unfortunately become ubiquitous in urban environments with that most terrible invention: the leaf blower. For the sake of the health, welfare, and well being of Oregonians, please pass this bill and ban small gasoline engines.
