Measure: HB2007

I urge you to oppose HB 2007. Oregon intentionally has had the same rules for firearms possession in all counties so that it simplified the laws for all. We should not make this confusing and difficult by allowing any governing body decide what they would like to do in this manner. Concealed Handgun holders are some of the most law abiding citizens in the entire state and country. This bill would do nothing to prevent criminals from committing crimes or violence. This is nothing more than another method to limit our 2nd amendment rights.
