

Submitter: Mike Dahlberg
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

To whom it may concern,

I am giving you my written testimony in objection to HB2006. Besides this bill being highly unconstitutional and an infringement of our rights written in the 2nd amendment. This bill makes no sense and highly contradicts us as a country. How is it if this bill is passed law abiding citizens will not be able to purchase or own a firearm between the ages of 18-21 but this country will send our youth to protect us by giving them a firearm? The supporters of this bill are flat out NUTS!! How is this supposed to help our state? I hope you take my testimony seriously and into consideration!
