

Submitter: Mike Dahlberg  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

To whom it may concern,

I am giving you my written testimony against HB 2005. Once again leave it to Oregon to infringe on our constitutional 2nd amendment rights. Please tell me how this is suppose to make Oregon better? Why do politicians lay the fault at the feet of law abiding citizens? Oh let me guess because someone has a thought that these guns are all over Oregon? Sure I can bet some of the Oregon gangs have them but since a majority of you especially Portland have taken the rights of our police officer to enforce law. To remove these from criminals!! You have de-funded police departments! Have any of you actually taken a look that violence went up when gang task forces were dismantled? I am a law abiding citizen and a responsible gun owner and yet here again I'm having to fight for my constitutional right because some of you are getting your pockets filled from the lunatic organisations that support this garbage! Please stop making people of Oregon like myself the fall person for your own personal agenda!

Mike Dahlberg  
Oregon resident
