

Submitter: Casey Richmond  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2006

forms. I've carried a gun everyday for many years and yet that gun has never hurt even one person. That is because mental health is the problem, not guns! If a 18 year old can get married and start a family or even go to war and fight for this country with guns then they should be able to own a gun to protect themselves. Not only is this bill a blatant violation of my constitutional right to bear arms but more importantly it's a violation of my God given right to protect myself and my family. The state should in no way have the ability to take away my rights given to me by my God at birth. This bill is bad for every Oregonian wether they know it or not. I oppose with vigor!
