Measure: HB2007

Oregon concealed carry license holders have a record of being some of the safest and most responsible citizens of the state. Has this really been a problem, or are we just out witch hunting for more people to depose of their rights. 94 percent of mass shootings happen in weapons free zones. This means you have a greater chance of being assaulted in a place where it is illegal to carry a permitted firearm. Do the sensible thing and trespass this bill.

Thank you,
Ryan Cook
