

Submitter: Michael Graziano

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

This is another push and waste of oregon money if the gun isn't reported stolen and the person isn't a felon then it shouldn't matter. The old collectable guns never had papers and very rarely ever get shot but it would make the man or women that collects them a criminal I 100% opposed this bill and really wish our state officials would quit wasting time and money on this stuff and focus on keeping out state a beautiful state or else the whole state will look like a homeless camp.
