

Submitter: MATTHEW HAMILTON
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Please Oppose HB2005. Legal, law abiding gun owners are not the problem. Stop releasing violent and repeat offenders until they legitimately prove they wont be violent or commit crime again. Please be responsible law makers, that is why you were voted into your position. In an easy to understand statement "Creating more and more laws that restrict good people from protecting themselves will not help prevent bad people from causing violence and harm." Please understand this.
