

Submitter: Josh Farley
On Behalf Of: American constitutional rights
Committee: House Committee On Judiciary
Measure: HB2005

This bill is an infringement on 2A rights. Nowhere does it state anything about “ghost guns”. The reason this bill is being presented makes it appear that the supporters care about safety, and registering firearms. YET THERE IS NO GUN REGISTRY, deeming this bill useless. The punishments are extreme, to say the least. In a state where small amount of heroin, and meth are legal, which has increased violence, creating a much less safe state, we’re being asked not to defend ourselves against the threats brought to us by the Democratic Party. Vote no, it’s dangerous, and an infringement on the constitutional rights of every American citizen.
