

Submitter: Jacob Hertler

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Please stop stripping our constitutional rights to bear arms. Every time you restrict more and more you take away rights of all the future generations. That's what our forefathers fought to free us from. This bill hurts only the law abiding citizens. I don't understand why you want to strip away your own rights and all the rights of your own future family members as well. Firearms don't harm people. People harm people. Why don't you work on the problem instead of blaming it on and tool. It's because your clueless how to fix the problem so you just hurt the law abiding citizens and future generations.
