Measure: HB2007

This bill reduces the ability of me to carry concealed. The bill is vague on where I can carry legally. I have been trained properly, and have a background check that is thorough. According to the State of Oregon, I've earned that right. The only thing this bill does, is take more of good people's rights away. Is DOESNT solve what the bill writers are after. Or does it?! Taking more of a persons rights away by poorly and vague bills.
