

Submitter: Sarah Vail

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

I encourage you to vote NO. This bill will slow the development of new housing we are in desperate need of. I have been in Property Management for 27 years and have two new projects schedule to be complete in the next 3 months. Both of the developers for these projects intend to put the brakes on any new development in Oregon if this passes. This is not a helpful bill it is harmful.
