

Submitter: Darren Camillo

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

HB 2005 - This law's language is too broad and needs to exclude those law abiding citizens who build their own guns for sport and hobby. Criminals who file serial numbers or build their own will ignore this law all together. In essence this law hampers law abiding citizens and does nothing to alleviate the problem that the law isn't addressing
