

Submitter: Sharen Ginther

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

I believe that those with concealed carry permits should have the right to carry anywhere in Oregon. It seems to me like a no gunzone is the perfect space for a shooter to target. CCP holders have already passed a pretty impressive test as to whether they are mentally stable or not. I have never heard of anyone with a CCP going crazy in a public situation. I myself would feel safer, knowing that someone or many someone's, with firearm experience were concealed carrying.
