

Submitter: William Alston

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I oppose this measure. This measure will have no impact in reducing gun violence. Instead, the DOJ should study what is truly causing people to inflict violence on others. The firearms aren't the issue it's the criminals that are pulling the triggers. The DOJ should also provide accurate data to the public what are main culprits of crime such as gang affiliation and suicide,
