On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Gun free zones historically and statistically have created shooting spree zones. Not from CCL holders but from Criminals who don't follow these laws. Do some research and tell me a gun free zone saves lives. Time and time and time again these gun free zones lead to more death of innocent people than they save. Stop criminalizing law abiding citizens who have been approved to carry. They might someday save your life. Ask yourself, If you're even in a active shooter scenario would you want a good guy with a CCL trying to defend you? Or would you like to just be sitting around waiting for cops to access the scene for hours outside? The answer is clear.
