Measure: HB2631

I ask that you please support this bill to help cattle ranchers with the ongoing wolf problems. Since the wolf still has not been de-listed as an endangered species then the cattle ranchers should at least get something back for the devastation the wolf continues to have on their herds. The wolf has literally taken over grazing areas and the cattle will refuse to graze in the areas where the wolf is evident, thus taking food and water sources from cattle. They kill cattle for fun, leaving them for the ravens and eagles to clean up. Supporting this bill is necessary.
