

Submitter: Robert Reyes
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Our 2nd Ammendment Rights are being eroded away and this needs to stop. The Constitution clearly states " Shall not be infringed...". Not only does this violate our constitutional rights but our freedoms to protect ourselves during a time when police protection is at a low and criminal activity at an all time high but also basics rights to enjoy our God given right to possess what we enjoy as sport. This law will make criminal out of law abiding citizens while criminals will have free reign do do whatever they please.
