

Submitter: Kimmia Whittlinger

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB3431

I am opposing this bill due to my personal position on making a difference along side Measure 110. Being an addict in long term recovery, I am honored to be able to help the amount of people with the resources from Measure 110. If Measure 110 was drastically cut, I believe that there will not only be many community members effected but also community partners and organizations who are making such a beneficial impact on the entire state, one small community at a time.
