

Submitter: Justin Mason

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB3431

I am the Case Manager at Phoenix Wellness Center. I strongly oppose this bill. We have done many great things that we would not have been able to with out measure 110 funding. I am also a member of the Lincoln County treatment court team and the number of people we have been able to help have drastically improved. We have helped a lot of people get services that would not have been able to otherwise without these funds.
