

Submitter: Joshua Villa-Hernandez  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

As an individual person who supports the 2nd Amendment, I call on all representatives who have voting power to oppose Oregon House Bill 2005.

Not only is HB2005 unconstitutional, this bill would ultimately put over 70,000 law abiding Oregonians in great risk of being prosecuted in having so called "Ghost Guns", which the definition of a Ghost Gun is very vague. These firearms that these law abiding citizens have purchased went through a background checks, gone through all the proper paper work, and all of these citizens have purchased these serialized frames and receivers with all the documentation. Now Oregon law makers are saying that even after someone goes through and put in all that work to build their own personal firearm, that could ultimately still land them a ridiculous fine and or prison time. That is what we call unconstitutional.

These law abiding citizens who chose to build their own firearm want to be able to understand how their properly build firearm functions and some of these citizens want to be able to have a chance to pursue a career in Gun Smithing. These firearms break down just like cars and we want to be able to replace the major components on our firearms, just like we do with our vehicles that have to be fixed up to run properly. There is nothing wrong with a someone trying to fix up their own firearms, it's just like someone who wants to learn how to fix up their own car. It is a hobby and it is also something that cannot be infringed, please do not take our Right to Keep and Bear Arms.

Ultimately, Oregon law makers are trying to take that joy away from the ones who are actually abide by the laws, please don't put over tens of thousands of YOUR Law abiding Oregonians at risk of felons for something they did not do.
