

Submitter: Mary Evens

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

I very strongly support the passage of HB 3390. No animal should suffer and die for the use of their skins/fur.

We are better than that and there are lots of alternatives available to those who want the "look" of fur to wear.

It was one thing for our ancestors to hunt and to use the animals for survival. It is simply cruel to confine them in cages and then kill them inhumanely to use their fur. Please vote yes for this bill!
