

Submitter: Dan Muir
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

This is a horrible bill aimed purely at a class of people who commit a negligible amount of crime. I'm talking about concealed carry permit holders. These people believe in protecting the weak from the predators. They don't trust that the police are able to prevent crime, so they follow all the rules of the system and get background checked, take a class and train with their firearms. These people are the definition of law abiding citizens. The passage of this law would make it virtually impossible to navigate a city while legally carrying a firearm for protection in these crazy times. Simply taking a walk on her lunch break could land this citizen in jail for 364 days? Crazy! Do you honestly think that a person with the bad intent to do harm with a firearm, would see a "gun free zone" sign and then decide not to commit that crime? No, it will only leave those who follow the laws defenseless. This is a feel good law that fails on even the simplest of logic. You are better than this and not this naive. Use logic and common sense and vote no on this nonsense.
Thank you
