

Submitter: Leon Fishlyn

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB525

I wake up to gas powered blowers at the New Seasons at 7 Corners. It also scares my pets. The quality of the air in my city is only made worse by the unfiltered exhaust by these machines. There are alternative machines to blow leaves in 2023! We must clean up the air, water, etc if we want to save the earth.
