

Submitter: Cristy Murray

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Every year, more than 100 million animals are raised and killed just to be turned into fur products like coats and hats. On fur factory farms, undomesticated animals spend their entire lives in cramped cages and deprived of their natural behaviors, only to be crudely gassed or electrocuted at the end. Please pass HB 3390 and help put an end to fur for good. No one needs to wear fur in the 21st century.

Thank you.
