

Submitter: Richard Fuller

On Behalf Of: Timber Valley Tobaccos

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Greetings Friends of the legislature,

Why are our fellow Oregonians who wrote this bill allowed to decide if me or my customers can enjoy these products?

Freedom, personal choice. There's little more to this issue than those two things. I would like to see you go after the tobacco companies to eliminate additives, less flavors. You want to save lives...start there.

Lastly, there is no way a child of any age can acquire tobacco products from a store front. Internet, yes, from me no.
