Measure: HB2005

I deeply oppose this bill,

First i would like to add i have been a country girl most of my life. I can guaranty no firearm has killed anyone without a human behind the action. I have heard alot of crimal acts of killing people, not all guns, some poison, some knife, some beat to death, and so forth.

I feel like you need to fix human behavior, anger, depression, hate.... Mental problems.

I have a right to the 2nd admendment, so i feel like adding this bill only would effect the innocent people. Criminals do Not obey laws. If they did they Wouldn't be criminals. They would be Law Abiding Citizens. Therefor i feel like i am being punished for criminal acts.

Strongly Oppose
